

Overview

GalacticStar is a platform that combines gaming, merchandise sales, and investment through the use of cryptocurrency tokens. The multi-level marketing (MLM) system allows users to earn additional benefits by recruiting others to join the platform.

Token Utility

In-Game Purchases: GSTR is used to buy items within the games available on the GalacticStar platform.

Marketplace Transactions: GSTR can be used for buying and selling merchandise in the GalacticStar marketplace.

Staking and Rewards: Users can stake GSTR to earn rewards in the form of additional GSTR or exclusive items.

Referral Rewards: The MLM system provides commission in the form of GSTR for every new user recruited.

Overview

GalacticStar aims to create an engaging ecosystem by leveraging the power of gaming, e-commerce, and crypto-based investments. With clear tokenomics and a rewarding MLM system, GalacticStar hopes to attract many users and build a strong and thriving community. This whitepaper provides a comprehensive overview of the GalacticStar platform, its tokenomics, and the measures in place to ensure a secure and rewarding experience for all users.
